Director of Finance Report

Even with the uncertainty of covid19, our shows were financially successful this year.

Our bank had stopped accepting cheques and now has stopped issuing cheques and the name of Catz Inc Society cheque account is now just called a Society Account.

Earlier this year our bank also stopped allowing withdrawals at the counter in the weekend. This caused a small issue getting money out for a Catz Inc. show. The list of services that the bank would do on the weekend included money changing, so, to get money for a show, it is withdrawn from the ATM then taken to the counter and changed to required denominations.

With the latest lockdown, we had to cancel the last Board of Directors meeting and the last show. This only left accounting for incoming money from registry in October. No mad rush to close the account just after a show.

The Director of Finance has not suggested any price rises this year.

A reminder that a clear reference on payments and sending payment confirmation to the correct person means the money you pay into our bank account is quickly and correctly recognised. If you are using an account named different to your membership name you will also need to add your name to the reference.

The banks haven't provided the account number that money comes from for years now, so if a refund is needed you will need to send your account details and reason to Finance@catzinc.org. This will be processed once the refund eligibility is confirmed.
