Corporate Services AGM Report 2023

Membership:

The membership is going well, as at 30th September 2023 there were 152 members; as at 30th September 2022, 154 members.

Please remember if paying by Direct to Bank I require a proof of payment before I can action applications. If paying by credit card please tell me if the card details expiry date or change of address occurs.

From the 10.10.2023 all new and renewal membership will go onto the 2024 membership list. If you want to go onto the Breeders List, please request the form from me. I will send you the form to fill in and return to me so it can be checked and then forward to the Web Master to load. This is because my workload has increased.

Registrations:

When sending registrations by email I require the registered name and number of the parents. If you don't supply the information, your registrations will be delayed until I have the information from you.

Remember when using a NZCF or other registry stud the owner of the stud must in writing by email give me permission saying that they believe the resulting kittens are from their stud. I also require a copy of a 4 generation pedigree of the stud.

Imports to be registered must have a 4 generation certified pedigree and proof of ownership.

You can still show imports not registered as long as I have the application to register in my hands as other registries can take awhile to process.

I have noticed that some members that are dual registered with Catzinc and NZCF do not always register all litters. Please note that Catzinc rules state that all litters shall be registered.

Transfers:

Transfers must be done within 21 days from sale or upon full payment being received. Those that are sold for breeding must be transferred and require a certified pedigree if going to another registry. This is required by the other registries as they will not register the cat otherwise without a certified pedigree from the origination registry.

Fees:

Catz Inc. AGM 2023

Web Site: www.catzinc.org

Litter under 6 months of age 20.00 over 6 months 30.00 Gen 1 parents unknown 5.00
